PADDOCK SIZING WORKSHEET

Answer these questions first:

How many Animal Units am I grazing? _____
(An Animal Unit is 1000lb worth of live animal weight)

What is my County's carrying capacity? _____
(Carrying capacity is the # of days you can graze one animal unit
on an acre before moving the animal off and letting that
acre rest for the remains of the year)

Remember that an acre is 43,560 square foot.

Harmony Farms

PADDOCK SIZING WORKSHEET

Fill in the blanks with your own numbers from the previous page.

1. $\frac{\text{Carrying Capacity}}{\text{Animal Units}} =$ _____

2. $43,560 \div$ _____ $=$ _____
Put the result of the equation above here.

This is the square footage of your paddock for one day.
