WHAT'S

in this bundle.

“Where do I start?” It’s the question I get a lot and the question I had myself when I first launched into sheep farming. *This booklet answers that question.*

In 2020 I started making videos for beginner shepherds... the videos I **could not** find as a beginner myself. I was a first time farmer, trying to make a profitable situation out of my 30 acre Sheep enterprise.

I took notes on my successes and failures and began to create videos that would support those coming in behind me.

The following is an easy-to-navigate catalog of those resources. There are 3 categories: Flock Startup, Grazing Management, and Business Planning.

Click the PDF icons for a printable worksheet, and click the video icon for a short video related to the process.

This little booklet is almost a course of it’s own... and I hope it helps you!
